Dixie Chicks

With a double-platinum album and two No. 1 hits under their belts, the Dixie Chicks are sitting on top of the world. During a stop on their tour in Evansville, Ind., *Music City News* got the chance to check out their show and talk with country's hottest act.

The background of the page features three blonde women in black outfits performing on stage. One woman on the left wears a pink shirt and black skirt. The woman in the center wears a black lace crop top and black pants. The woman on the right wears a black long-sleeved top and black pants. They are all smiling and holding microphones. The stage is lit with purple lights, and the background is a blurred crowd of people.

The stage is dark, lit only by strategically placed purple lights that illuminate three microphones draped with pink feather boas. As the music swells, a thunderous roar rises from the crowd.
